Silenced metal latch

Combines the aesthetic perfection with the noiselessness of the lock: the finish of the latch and the forend are alike. The nylon insert, positioned in the latch centre, preserves the noiselessness when closing.

Accessory replaceable to the polyamide latch, at any time and with the greatest of ease, thanks to the patented fast latch coupling system Quick Latch®.

*Available finishes for backset
50 and 60 mm:
Enamelled brass plated
Nickel plated
Matt chromium plated*

*Polyamide
latch version*

*Metal latch
version*

Striker for rebated doors

A more beautiful jamb: forend and tray merge in a single piece and the uniform finish completely coats the milling on the jamb.

Available finishes:
Nickel plated
Enamelled brass plated
Matt chromium plated

- Gasket compression adjustment by means of a 180° striker rotation. No additional milling required.
- Replaceable to the traditional Mediana striker B01000.40.XX.
- Compatible with Centro latch only lock.

Electric strikers for rebated and flush doors

Specially designed for latch only locks, are a really new product in the accessories market for interior doors. Moreover enrich the wide range of electric strikers offered by AGB.

- Gasket compression adjustment thanks to the screws positioned on the mobile wing.
- Embedded steel strikers, 2,5 mm thick.
- Flush striker designed for applications on 44 mm thick doors. It can be installed on panels with different thickness by dis-aligning the lock housing.

Available finishes:
Enamelled brass plated
Nickel plated
Matt chromium plated
