3D Adjustable hinges for timber

Hinge hole coated with self-lubricating plastics.

For use on sashes up to 90 kg in weight (no. 3 hinges $\varnothing 16$ for sash with dimensions 2200x850 mm and 30 kg/m² glass weight).

Y	$\varnothing 14 \times 82 \text{ h}$	$\varnothing 16 \times 82 \text{ h}$
X	39,5	48,5 - 65

Stainless steel revolving ball.
Thanks to a small contact surface, this solution ensures easy sash adjustment, maximum stability and remarkably smooth hinge movement.

- Materials: steel and stainless steel plain.
- Finish: bichromated, silver finish and bronze plated.
- ABS covers: nickel plated, light bronze plated, brass plated, white RAL 9010, black, brown and silver.
